

Credit Card Sleeve Customer Template

LIGHT COVERAGE

Substrate: TRINITY RFID Shield™

Folded Size: 2-1/4 x 3-3/8

IDEK is RFID protection sleeves product which can be used to protect your identity and prevent electronic pick-pocketing.

Choosing a Thumbcut Direction for the Back

Thumbcut direction may be important when fitting artwork for the back of the sleeve.

With the thumbcut on the left (A), think of flipping the sleeve over from left to right.

With the thumbcut on the right (B), think of flipping the sleeve over from top to bottom.

Figure out which way the artwork will be oriented on the back and set it up on the appropriate template.
